Proof. Protection. Power.

Your shield against deepfake harm.

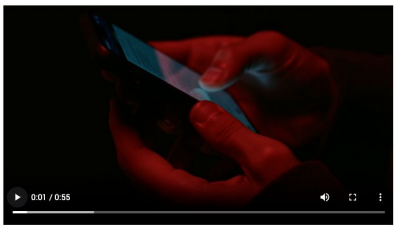
DefendMyRep helps victims of deepfake sexual exploitation—especially minors and their families—verify fake images, regain control, and take meaningful action.

Verify an Image or Video | Get Help Now

Trusted support for deepfake victims, parents, and communities.

When deepfake targets you, seconds matter.

This short video explains what deepfake harm is, why it's dangerous, and how **DefendMyRep** helps victims take back control—quickly and safely.



What's *really* happening:

Deepfake sexual abuse is rising fast. Anyone can create fake explicit images using a single photo.

Victims—often children—are left frightened, isolated, and unsure where to turn. In some cases, the harm has led to suicide.

One child is too many.

How **DefendMyRep** helps.

Verify the truth.

Education is one of the strongest forms of prevention.

Victim Resources

Guides, scripts, checklists, and mental health resources designed to help victims respond safely and confidently.

When harm has already occurred, victims need immediate, practical support.

DefendMyRep offers:

- Step-by-step response guides
- Scripts for talking to parents, schools, employers, or trusted adults
- Checklists outlining what to do—and what not to do
- Guidance for protecting mental health and emotional well-being

These resources are designed to reduce overwhelm and help victims regain a sense of control during an intensely stressful time.

Policy & Advocacy

Our advocacy work is nonpartisan, solution-oriented, and focused on modernizing protections to adapt to technology.

Deepfake sexual exploitation exposes serious gaps in current laws, institutional policies, and response systems.Technology evolves rapidly. Policy and safety standards must evolve with it.

DefendMyRep supports:

- Protecting children and vulnerable individuals
- Updating laws to reflect modern threats
- Holding perpetrators accountable
- Supporting victims without stigma

DefendMyRep advocates for:

- Clear legal definitions of AI-generated sexual exploitation
- Faster takedown and response mechanisms
- Stronger protections for minors and vulnerable individuals
- Victim-centered reporting and investigation processes

Verify the truth.

When something fake causes real harm,
clarity is the first step.

DefendMyRep was built to help people act quickly and confidently when deepfake sexual content appears. Our process is simple, private, and designed to put control back where it belongs, with you.

From verification to next steps, we guide you through what to do, what to avoid, and how to protect yourself or someone you love.

Proof comes first. Support follows.
Action becomes possible.

Step 1: Verify the Content

Upload the image or video in question to a very secure external verification tool. This process is private, confidential, and designed to be completed quickly.

This technology analyzes whether the content was generated or manipulated using AI. Results are delivered with up to 99% accuracy.

Verification gives you clarity and evidence.

Start Verification

Step 2: Understand Your Options

Once you have proof, we help you understand what that proof means and how it can be used.

You decide how far to go. We support you either way.

How to talk to family members or trusted adults.

Ways to ommunicate with schools or employers.

How to document evidence.

How to prepare for legal or investigative steps.

Step 3: Take Back Control

Deepfake harm thrives on silence and confusion. Verification allows victims to reclaim their voice, reduce fear, and stop speculation.

Our resources help you move forward with confidence, dignity, and support.

Law Enforcement Support.

Modern technology requires modern tools and trusted partners.

Deepfake sexual exploitation presents challenges that many agencies do not have the resources to handle. **DefendMyRep** serves as specialized support for law enforcement agencies in navigating AI-generated crimes.

We provide verification, investigative guidance, and expert insight to help agencies act quickly, confidently, and effectively in cases involving deepfake harm.

When the tools are unavailable, we help bridge the gap.

Supporting agencies investigating AI-generated sexual crimes.

Deepfake sexual exploitation presents unique investigative and procedural challenges. Many agencies lack dedicated cybercrime units or specialized AI expertise, yet are increasingly encountering these cases.

DefendMyRep supports law enforcement by providing:

- AI-based verification of suspected deepfake content
- Documentation support suitable for investigative and legal use
- Expert consultation on emerging AI threats
- Guidance on victim-centered response and communication

DefendMyRep does not replace existing authority or investigative processes. We act as a supplemental resource—helping agencies respond faster, reduce uncertainty, and better support victims.
